ELEVEN ACCUSED MEN

They Were Arraigned in the Circuit Court This Morning.

ALL "NOT GUILTY" BUT ONE.

Lewis Ake Confesses His Guilt and Sentenced to Jackson This Afternoon.

Eleven alleged criminals stood up before the bar in the circuit court at the opening of the October term this morning for assignment. All pleaded not guilty except one and he was Lewis Ake, accused of stealing a bicycle, the property of Dr. Belknap, of Niles. Ake is also one of the five prisoners who sawed to liberty from the county jail last summer and one of the two escaped convicts who were recaptured after two weeks of freedom. It was expected that Ake's wife, who lives in Chicago, would be present at his arraignment but she failed to put in an appearance. Two of his brothers are here, however. Ake will be sentenced this afternoon without seeing his wife.

The other prisoners arraigned, all of whom pleaded not guilty, follow:

Samuel Livingston, charged with committing a murderous assault upon M. A. Jennings. Charles N. Sears appointed by the court to defend him.

Peter Tonneller, selling liquor without giving a bond. Hammond & Hammond attorneys for the defendant.

William Burns, assault with intent to murder. H. W. Davis appointed to defend.

Peter Peterson, assault with intent to murder. Gore & Harvey attorneys for defendant.

Archie Pool, assault with intent to murder. I. W. Rifford appointed by the court to defend.

George Roberts, larceny. Hammond & Hammond attorneys for the defendant.

John Morgan, larceny. H. W. Davis appointed to defend.

John Stathers, sodomy. Hammond & Hammond attorneys for the defendant.

Amos Day, carnal knowledge of female under the age of 16 years. H. W. Davis appointed by the court to defend.

Thomas Colburn, larceny from dwelling. H. W. Davis appointed for defendant.

A. Jeslain, charged with assault with intent to kill was arraigned this afternoon and plead not guilty.

F. B. Johnson and James A. Johnson, charged with violation of the liquor law were arraigned and plead not guilty.

In the case of Fred Monich against Henry S. Williamson, an order to dismiss the special appeal and grant the plaintiff an attorney fee of \$10 was entered.

In the case of Minerva J. Godown against Fred E. Avery, security for costs was ordered entered.

A motion to dismiss the case of the people against Lewis Bell was taken under advisement by the court.

Four criminal cases were nolle prossed upon the recommendation of Prosecutor Valentine. They were: David Goldbaum, receiving stolen property; Arthur Lambert, larceny; Fred Bohn, attempt to rob and Wesley Fowler, forgery.

Security for costs were ordered in the cases of Tabor against Brower and Eugene W. Cribbs against Patrick Yore.

In nearly every case the attorneys were ready for trial, a condition so unusual that Judge Coolidge felt impelled to remark upon it.

The judge proposed a change in the terms of court so as to have two terms between January and May, the third term in September and fourth in November. At present the terms are January 11, March 15, May 17 and October 11. The change as indicated was satisfactory to the members of the bar and will probably be made.

Court will adjourn tonight until Monday, October 25 when the jury will be present and the trial of criminal cases will begin. Here is the first week's assignment made by the court today.

October 25—John O'Brien, assault and battery; Timothy Talbot, assault and battery; William Burns, assault with intent to murder.

October 26—Alfred Olsen, assault with intent to do great bodily harm; Archie Pool, assault with intent to murder; Peter Tonneller, selling liquor without giving bonds.

October 27—Amos Day, carnal knowledge of female under age of 16; Lewis Bell, violation of Sunday law; Thomas Colburn, larceny from dwelling; John Morgan, larceny.

October 28—Fred Colgrove, George Roberts, larceny; Jacob Hushaw, surety for peace; Harry S. Whitney, assault and battery.

October 29—Peter Peterson, assault with intent to murder.

D. E. Jennings, who has been running a barber shop on Sixth street and recently sold out to John Slater of Chicago, has opened one in the Shorn-horn building on Territorial street and will be pleased to see his old customers.

W. J. Fitch, hair emporium, on up in all the town.

THE WEATHER.

Showers tonight and probably Tuesday. Brisk southwesterly winds.

OLD COURT HOUSE.

Chicago Man Wants to Buy and Convert It Into a Hotel.

The board of supervisors has received a letter from J. Sherlock Allen of Chicago and it was placed before the board this morning. Mr. Allen offers \$1,250 for the old county buildings at Berrien Springs. The offer will be considered at 10 o'clock tomorrow morning.

If the offer is accepted Mr. Allen will remodel them into a theatre, hotel and a public library and gymnasium.

STRUBEN IS OUT.

No Longer Interested in the Kalamazoo Firm.

Mr. Struben, the Kalamazoo gentleman who was here last week to declare off all negotiations for the purchase of the Ballhouse & Struben firm at the time of his visit, the firm having dissolved nearly two weeks before. Mr. Ballhouse has secured a new partner and will remain in Kalamazoo. Prof. Kneeland says in regard to the charge that he kept the firm away from Benton Harbor:

"Mr. Struben is not a member of the firm of Ballhouse & Struben, they having dissolved partnership twelve days before he came to Benton Harbor last week, therefore was not here to buy the Buss works as he claimed. All parties to the deal were notified by Mr. Ballhouse two weeks before that they could not buy the Buss works. Mr. Struben is a mechanic but is not possessed of money. Mr. Ballhouse was the business end of the concern and is now going on with the old business with a partner in place of Struben and instead of a disagreement between Ballhouse and Kneeland the opposite is the truth. Wheelbarrows are now being made and shipped and there is no disagreement as to terms. Ballhouse made Kneeland an offer weeks since and the offer was accepted by Kneeland in case the business was properly pushed and they came to Benton Harbor. Kneeland never made any demands as to royalty that were not readily accepted verbally or agreed upon."

THE NEWS has seen letters from Ballhouse to Kneeland dated September 30 and October 2 which shows above facts to be true. All the new improvements as to new patents thought of by Struben are known to Mr. Kneeland all being on principles previously gone over by Kneeland, such as having the back wheel work upon a pivot is one.

Having studied the question months in advance of others Mr. Kneeland has other patents pending that people know nothing of, that inventors would run onto in the patent office. German, English and American inventors have gone over the ground thoroughly trying to get a wheelbarrow with a back or auxiliary wheel but Mr. Kneeland is the only one that has hit upon a simple inexpensive and practical working device. Having had two years experience in searching the patent office records he has knowledge of every device of the kind in the world. It has cost a good deal of money to get this knowledge but all will have to pass through it who attempt to secure a patent on a wheelbarrow attachment.

Several Inches of Dampness Fell Here Today.

Heavy rains, just what this country needed, fell in showers at short intervals today. The gutters were running full with water and rubbers were needed to cross any street and preserve the feet today.

The rain will do a wonderful part toward cheering the farmers, especially those who have wheat sown. The rain will stimulate the business of the city.

ELECT A DRAIN COMMISSIONER

That Will Be Part of the Business of the Board of Supervisors.

The board of supervisors convened at 1 o'clock this afternoon in its room in the court house. The session will continue a week. The most important business is the equalization of taxes. Coming before the board this term will also be the matter of electing a county drain commissioner, a school examiner and a superintendent of the poor to succeed Freeman Franklin, resigned. County Drain Commissioner Burbank is a candidate to succeed himself. Other candidates for that office are Supervisor Glavin, of New Buffalo, M. W. Jennings, of Benton Harbor, and Frank Helm, of Oronoko.

The matter of the election of school examiner will be taken up at 10 o'clock Wednesday, the election of drain commissioner at 10 o'clock Thursday and the election of a chairman of the board of superintendents of the poor, to succeed Freeman Franklin will be taken up at 2 o'clock Thursday afternoon.

TELLS OF THE SITUATION ABROAD

And What Chance There Is to Sell the
Handwork of American Skill or the
Fruit of the Earth—Reports of Our Con-
suls as to the Needs of Foreign Nations—
Facts of Interest to People After the
Alleged "Bull Estate."

Washington, Oct. 11.—The bureau of
foreign commerce of the state department
is just now busily engaged in the
preparation for publication of the vol-
ume known as "Commercial Relation of
the United States," embodying annual
reports from United States consuls in
every country in the world upon the
trade conditions in their respective dis-
tricts. Within the past three years the
quality and the value of this annual
publication to the business interests of
the country have improved in an aston-
ishing degree, owing to careful selection
of material, suggestions to consuls of
information likely to be desired, and the
addition of a compendious and thorough
review prepared by the chief of the
bureau, setting out conclusions as to
general trade tendencies that may be
impartially drawn from the vast store
of matter supplied by the consuls.

Valuable Information for Many.
The forthcoming volume is of larger
scope even than its predecessors, and
instead of being little more than the
dry compilation of figures that it for-
merly was, the "Commercial Relations"
for 1896-7 will present a mass of in-
formation of such variety as to be
valuable and interesting not only to
exporting merchants, but to public men,
to manufacturers and to technical
workers. From Hanover comes an ac-
count of the installation of an electric
railway for handling heavy freight,
suggestions for placing American tools
in Germany, and talk of an opening
for breakfast cereals. The consul at
Barcelona reports upon the trade of
Spain as affected by the Cuban war, up-
on the Spanish woman's aversion to the
bicycle and upon tariff and financial
questions.

Specimens of Its Contents.
From nearby Santo Domingo comes a
report of railway development, of tariff
changes and a comparison of European
and American credit systems. The de-
pressing effects of American competi-
tion upon the Swiss watch trade is de-
scribed by the consul at Geneva, who
also tells of the preference for Ameri-
can bicycles and of the growing demand
for American canned goods, California
fruits and sole leather. The leather
trade is also treated by the consul at
Bristol, a trade center, and he adds a
chapter on bacon that should be inter-
esting to hog-raisers and packers be-
cause of the technical hints upon grow-
ing and curing for the English market.
The consul at Coatcook throws out
some hints to American newspaper pub-
lishers as to the means of obtaining a
sale for their publications in the Domin-
ion.

CULLUM IS AT HOME AGAIN.

His John Bull a Whisk While Telling of
His Trip to Europe.

Washington, Oct. 11.—Senator Cul-
lum has returned from a two months'
tour of Europe, and said he had en-
joyed his vacation. He was particu-
larly pleased with the country in England
and the mountain scenery in Switzer-
land. He made a short and hurried
run through England, going as far north
as Edinburgh, spent some time in Lon-
don, then visited Brussels, Berlin, Dres-
den, Vienna, Luzerne, Geneva and Paris.
In the French capital the dressmakers
and shopkeepers were in an excited
frame of mind over the tariff bill, and
especially the personal baggage clause.
They were somewhat surprised to hear
a United States senator say he did not
think the law would be repealed.

The English were surprised that the
United States should pass such a law,
but the senator said it was a way with
Englishmen to be surprised when any
other people did anything for them-
selves without asking England's ad-
vice. The senator was struck with the
fact that in European countries where
there were so many exceedingly poor
people every one seemed to be kept at
work and made to earn a living. He
thought Berlin the best governed city
he saw in Europe. He met ex-Vice
President Stevenson in Paris, who ex-
pressed his confidence in the monetary
commission being able to secure some
concessions to silver from English
statesmen.

IS NO SUCH AN ESTATE.

Some Facts That May Save a Lot of People
Trouble and Money.

Washington, Oct. 11.—The treasury de-
partment has had many inquiries from
time to time about the alleged estate of
one Joseph Ball, of Philadelphia, which
is supposed to be in trust in the treasury
department. The letters speak of this
trust and of an alleged eighty-four-year
lease given by Ball to certain valuable
property in Philadelphia. Some time ago
it was stated that ex-President Harrison
was interested as an attorney in the es-
tate. Many hundreds of people all over
the country have been drawn into the
struggle for the money which they er-
roneously imagine lies in the treasury
awaiting distribution.

To all of these inquiries replies are
sent out informing the "heirs" that there
is no such fund in the treasury, and that
the only record in the treasury depart-
ment of "Joseph Ball, of Philadelphia,"
relates to a claim of about \$3,000 which
he filed as an underwriter against the
government in 1801 for cargoes seized by
the French. The claim is one of the ordi-
nary French spoliation claims.

By Minister Taylor at Washington

Washington, Oct. 11.—Hannis Taylor,
late United States minister to Spain, has
arrived in Washington. He called at the
state department and was in consulta-
tion for some time with First Assistant
Secretary Day, setting out such phases of
the conditions in Spain as they came
across his mind.

VERY VALUABLE BOOK

Washington, Oct. 11.—Lorrin A.
Thurston, an estate from Hawaii, has
issued a "hand book on the annexation
of Hawaii" of eighty-eight pages in
pamphlet form. In it he essays to an-
swer all the objections to annexation. The
pith of the argument is the well-known
one that the islands are the key to the
control of the Pacific, and that if we do
not take them somebody else—most
likely Japan—will. The concluding para-
graph is the most significant: "The day
has gone by when the United States can ig-
nore its international privileges and ob-
ligations. Whether it will or no the
logic of events is forcing the American
people and to take their place as one of
the great 'international nations,' and in-
cidentally thereto to adopt such meas-
ures as are necessary to sustain the posi-
tion."

Will Appeal from the Appraisers.

Washington, Oct. 11.—Acting Sec-
retary Spaulding said Saturday that the
treasury department will appeal to the
courts from the decision of the general
board of appraisers in New York hold-
ing that the Dingley tariff bill did not
go into effect until the actual moment it
was signed. The department still main-
tains that the law was operative from
the prior midnight of the day it was
signed.

DEATH OF P. E. STUDEBAKER.

General Manager of the Well-Known In-
diana Manufacturing Company.

Alma, Mich., Oct. 11.—P. E. Stude-
baker, of South Bend, Ind., died at the
sanitarium here Saturday morning of
heart disease. P. E. Studebaker and
J. M. Studebaker arrived here Wednes-
day last, and J. M. Studebaker was the
only member of the family present at
the death of his brother. While Mr.
Studebaker had been in poor health for
some time his condition was not consid-
ered alarming. Since being here he had
been out driving, down to all of his
meals, and only Friday evening was chat-
ing with friends in the sun-parlors.
His brother, J. M. Studebaker, left with
the remains for South Bend Saturday
evening. The funeral will take place
from his late residence at South Bend
tomorrow at 2 p. m.

Peter E. Studebaker, was second vice
president, treasurer and general man-
ager of the Studebaker Bros.' Manu-
facturing company, South Bend, Ind.
He was born in Ashland county, O.,
April 1, 1836, and was one of a family
of thirteen children, of whom there are
six surviving. Clem Studebaker, pres-
ident of the company; J. M. Studebaker,
first vice president, and four sisters—
Mrs. Phillip Welch, Goshen, Ind.; Eliza-
beth Witwer, South Bend, and Rebecca
and Maria Studebaker, both of South
Bend. While Mr. Studebaker resided
at South Bend during the greater part
of his business life, he lived in Chicago
for ten years, from 1886 to 1896. He was
a man of broad charities and gave freely
of his ample means. He was married
three times, his third wife, who sur-
vives him, having been Mary Louise
Ewing, of South Bend.

LONG DROUGHT AT LAST BROKEN.

Rain Falls in Kansas, Nebraska, Arkansas,
Tennessee and Other States.

Kansas City, Oct. 11.—Specials to The
Times from Kansas, Missouri, Nebraska
and Arkansas points announce the break-
ing of the drought. The rain has been
general throughout Kansas, varying
from a good rain to a regular downpour.
St. Louis, Oct. 11.—Late last night
rain began falling here, developing into
a steady downpour which promises to
be a drencher.

Evansville, Ind., Oct. 11.—There was
a hard rain here last night.

Nashville, Oct. 11.—After many weeks
of drought a hard rain is now falling in
this city and the surrounding country.

Cincinnati, Oct. 11.—Rain began to fall
here at 1:30 this morning with every ap-
pearance of becoming copious and con-
tinuous.

Louisville, Oct. 11.—The prolonged
drought in this state was broken last
night by light showers.

St. Louis, Mo., Oct. 11.—This sector
of the country had a good rain yester-
day, the first in many weeks. Reports
tell of good showers in the northwest.

Illinois Strike Is Still On.

Streator, Ill., Oct. 11.—The strike of
miners in northern Illinois is still on, no
agreement being reached by the conven-
tion of operators and miners held here
Friday last. The delegates voted unani-
mously not to accept a less scale than
the price adopted at the Springfield con-
vention. The operators positively de-
clined to consider that scale, but of-
fered an advance of 4 cents over the
scale adopted here last May, which
would be 56 1/2 cents for screened coal.
They argued that they could not pay
the price asked and retain their busi-
ness, and said they would let the shafts
rot first.

Baltimore Likely to Get the Cup.

Baltimore, Oct. 11.—If the newly
fledged champions do not take the next
three games from the "three-time win-
ners" the Temple cup will remain in
Baltimore for another year, and the
"have-beens" instead of the beans will
get the big end of the gate money. For
the fourth time in the contest the Balti-
moreans Saturday defeated the pennant
holders, and left it necessary for Bos-
ton to win three straight if she gets
the cup. Saturday's score was 12 to 11.

Asylum Site Is Unsafe.

Peoria, Ill., Oct. 11.—It is practically
determined that the present site of the
Illinois state asylum for incurable insane
will be abandoned and the building tor-
rowed. The site, however, is expected
will remain near Peoria. The building
stands on a high hill and there is an old
coal mine underneath it, on account of
which it is not considered safe to erect
any more buildings there.

Scrofula

In its thousand forms is the most ter-
rible affliction of the human race. Salt
rheum, sores, eruptions, boils, all humors,
swellings, etc., originate in its foul taint,
and are cured by the great and only True
Blood Purifier, Hood's Sarsaparilla. The
advanced theory of today that tuber-
culosis, or consumption, is curable by
proper nutrition, care and purifying the
blood, finds confirmation in the experi-
ence of those who have used Hood's Sarsaparilla.

the death of his brother. While Mr.
Studebaker had been in poor health for
some time his condition was not consid-
ered alarming. Since being here he had
been out driving, down to all of his
meals, and only Friday evening was chat-
ing with friends in the sun-parlors.
His brother, J. M. Studebaker, left with
the remains for South Bend Saturday
evening. The funeral will take place
from his late residence at South Bend
tomorrow at 2 p. m.

Peter E. Studebaker, was second vice

president, treasurer and general man-
ager of the Studebaker Bros.' Manu-
facturing company, South Bend, Ind.
He was born in Ashland county, O.,
April 1, 1836, and was one of a family
of thirteen children, of whom there are
six surviving. Clem Studebaker, pres-
ident of the company; J. M. Studebaker,
first vice president, and four sisters—
Mrs. Phillip Welch, Goshen, Ind.; Eliza-
beth Witwer, South Bend, and Rebecca
and Maria Studebaker, both of South
Bend. While Mr. Studebaker resided
at South Bend during the greater part
of his business life, he lived in Chicago
for ten years, from 1886 to 1896. He was
a man of broad charities and gave freely
of his ample means. He was married
three times, his third wife, who sur-
vives him, having been Mary Louise
Ewing, of South Bend.

LONG DROUGHT AT LAST BROKEN.

Rain Falls in Kansas, Nebraska, Arkansas,
Tennessee and Other States.

Kansas City, Oct. 11.—Specials to The
Times from Kansas, Missouri, Nebraska
and Arkansas points announce the break-
ing of the drought. The rain has been
general throughout Kansas, varying
from a good rain to a regular downpour.
St. Louis, Oct. 11.—Late last night
rain began falling here, developing into
a steady downpour which promises to
be a drencher.

Evansville, Ind., Oct. 11.—There was
a hard rain here last night.

Nashville, Oct. 11.—After many weeks
of drought a hard rain is now falling in
this city and the surrounding country.

Cincinnati, Oct. 11.—Rain began to fall
here at 1:30 this morning with every ap-
pearance of becoming copious and con-
tinuous.

Louisville, Oct. 11.—The prolonged
drought in this state was broken last
night by light showers.

St. Louis, Mo., Oct. 11.—This sector
of the country had a good rain yester-
day, the first in many weeks. Reports
tell of good showers in the northwest.

Illinois Strike Is Still On.

Streator, Ill., Oct. 11.—The strike of
miners in northern Illinois is still on, no
agreement being reached by the conven-
tion of operators and miners held here
Friday last. The delegates voted unani-
mously not to accept a less scale than
the price adopted at the Springfield con-
vention. The operators positively de-
clined to consider that scale, but of-
fered an advance of 4 cents over the
scale adopted here last May, which
would be 56 1/2 cents for screened coal.
They argued that they could not pay
the price asked and retain their busi-
ness, and said they would let the shafts
rot first.

Baltimore Likely to Get the Cup.

Baltimore, Oct. 11.—If the newly
fledged champions do not take the next
three games from the "three-time win-
ners" the Temple cup will remain in
Baltimore for another year, and the
"have-beens" instead of the beans will
get the big end of the gate money. For
the fourth time in the contest the Balti-
moreans Saturday defeated the pennant
holders, and left it necessary for Bos-
ton to win three straight if she gets
the cup. Saturday's score was 12 to 11.

Asylum Site Is Unsafe.

Peoria, Ill., Oct. 11.—It is practically
determined that the present site of the
Illinois state asylum for incurable insane
will be abandoned and the building tor-
rowed. The site, however, is expected
will remain near Peoria. The building
stands on a high hill and there is an old
coal mine underneath it, on account of
which it is not considered safe to erect
any more buildings there.

THE EVENING NEWS.

THIRD YEAR—NO. 627.

BENTON HARBOR, MICH., MONDAY, OCTOBER 11, 1897.

ONE CENT.

THE CREED QUESTION.

It Received the Attention of Rev. George A. Sahlin Last Evening.

SENTIMENTS SEEM SENSIBLE.

Says the Universalist Creed Should be Large Enough for All or Else Have No Creed.

The Universalist convention of Michigan by an apparently unanimous vote, in the closing hour of the session, after many delegates had departed, instructed its delegates and officers to vote against the Meriden creed and to settle the question upon the basis of the Boston minister's proposition, which is to hold the present creed as a motto or declaration of our faith, but in no case to use it as a test of fellowship, but one must subscribe to the principles contained.

Rev. George A. Sahlin, pastor of the Universalist church in this city refused to go to Chicago bound by such instruction. First—because it was applying political methods to religious and moral affairs; Second—it established the unit rule; Third—because it left us no room for a minority representation in the convention. The religious convictions of a minority already in fellowship should be impartially considered; Fourth—because it deprived the delegates of the power to use discretion in any unforeseen contingency that might arise.

It was stated that the creed question is to be settled in Chicago. But one of two things can be accomplished: the Meriden creed, if adopted, abolishes the Winchester confession of faith. If the Meriden creed is defeated the Winchester confession remains in full force. The Boston minister's proposition cannot be legally adopted under two years, because it is in nature an amendment to the constitution and the by-laws of the general convention.

Last evening Mr. Sahlin took up the creed question and propounded some very pertinent inquiries concerning the same. He took for his text the following from St. Mark, 15: 1: "And straightway in the morning the chief priests with the elders and scribes, and the whole council, held a consultation, and bound Jesus, and carried him away, and delivered him up to Pilate."

The pastor said: "Pilate stands for public opinion. He had no convictions of his own. Public opinion crucified Jesus. Public opinion manufactures creeds. I would believe in creeds if it could be shown Jesus had one. The word creed comes from credo, I believe. A man has a right to his own creed but no right to impose it upon others. The Universalist church is not alone in the agitation of creed and ecclesiasticism."

The Methodist church by a close margin votes that women are not wanted in authority. The Congregational church invites the Rev. B. Fay Mills to step down and out because he dares act the man in co-operating with those of a liberal faith. It has been discovered that four thousand Methodist clergymen can thwart the will of three million laymen and the rest of the clergymen. Mankind is beginning to understand that character should be the fruits of religion and that a knave is such no matter what creed, political or religious, shelters him. An honest man is the noblest work of God, and the church, not the sectarian Jesus did not indulge in creed. He said: God is love. He believed God to be love. He believed the truth shall make you free. The kingdom of heaven is, not going to be. He would have his disciples say, I know God is love, and not that I believe. If we should say of a friend we believe him to be an honest man, nothing could eradicate the doubt which would arise in the mind of the questioner. I know him to be an honest man destroys the doubt and tells the truth.

It is a strange thing that the creed question should arise in the Universalist church. The Winchester Confession was adopted because Old New England forced the people to pay taxes to maintain the Congregational churches. Universalism had no legal standing until it adopted a creed. It was forced to do so by law against which it protested in spirit. The creed was not used as a test of fellowship until after 1870 and even now there are many Universalist churches refusing to adopt it. The Roman Catholic, the Greek Catholic, and many protestant denominations accept in common the Apostle's creed, and the Athanasian creed. What delightful harmony exists between them all. The letter killeth, the spirit giveth life.

If the Universalists are going to settle the creed question let them settle it right. They should have a creed large enough for all or be brave enough to declare themselves a creedless

church, insisting only that the righteousness of Christ should be the test of fellowship. The church should help men and women to become better. Simple belief will not do this, belief must become conviction and the conviction of righteousness emancipates mankind from sin.

Scriptural Arithmetic.

Rev. Wilson, of the Christian church, commenced his series of sermons on "Scriptural Arithmetic" last night. At one side of the pulpit he had a blackboard on which were the figures 5,000,000. He asked the congregation where he should begin to read and was told at the right hand side. After reading the figures as they were he crossed off two of the ciphers and asked the congregation to again read the number. He compared reading the bible with reading numbers by saying it made all the difference in the world where you began to read. He said if a teacher would tell a boy who wished to study arithmetic that it made no difference where he began, and the boy should turn to the middle of the book and try to work the problems in long division and fractions without first learning addition and subtraction he would soon throw the book to one side and declare there was no sense in it. The same way with the bible. Too many do not make the right beginning when they study the bible, hence some throw the book to one side and declare it a humbug.

His next sermon of the series will be delivered next Sunday evening at which time he will speak upon "Addition."

At the Congregational

The Congregational church was very prettily decorated, it being the occasion of the harvest festival. The platform was covered with fruits and vegetables and branches of trees, the leaves of which reflected all the autumnal colors, forming a background which produced an exceedingly beautiful effect. The sermon in the morning was to the old people and the church was well filled, the greater number being people well advanced in life. In the evening the address was to the young men. This will be followed a month later by one to young women.

The Episcopal Church

Rev. M. S. Woodruff, pastor of the Episcopal church, preached one of his characteristic doctrinal sermons last evening which was very edifying.

Another Wheel Stolen

A Topic bicycle No. 12, owned by Frank King, was stolen from the rack in front of Edgar Nichols' drug store Saturday night. The theft occurred about 8 o'clock. Young King had placed the wheel in the rack and stepped inside to make a purchase. When he returned the wheel was gone. It was enameled in green, and was one of the first wheels manufactured by the Topic people.

MURDOCH-MERRILL NUPTIALS.

Very Happy Marriage at the Merrill Home Last Night.

Frank B. Murdoch and Miss Minnie L. Merrill, only daughter of Ex-alderman and Mrs. L. L. Merrill, were united in marriage last night at the Merrill home on Ogden avenue, the ceremony being performed by Rev. George A. Sahlin at 6:30 o'clock.

The marriage was witnessed by a few of the relatives and most intimate friends of the principals. Mr. Murdoch's parents and brother and sister of Berrien Springs were present. After the ceremony a wedding supper was served. Some beautiful and very valuable presents were given.

Mr. and Mrs. Murdoch will leave for Lawrence where Mr. Murdoch, who is a civil engineer, is employed with the surveying corps of the Milwaukee, Benton Harbor & Columbus railway.

MAY HAVE BEEN ON CHICORA.

Bottle Picked Up Containing Significant Message

VALPARAISO, Ind., Oct. 11.—A long-necked wine bottle, which shows evidence of having been in the water a long time, was picked up on the beach of Lake Michigan, west of Chesterson, by E. W. Miller, of Crisman, containing a note signed by Ed Mason to his brother Robert, 52 Dearborn street, Chicago. Mason is supposed to have been on the steamer Chicora, which was lost on Lake Michigan three years ago. The note was headed, "Steamer Chicora, January, 1895," the date not being discernible, and stating that the vessel had gone to pieces off the coast of Michigan. The rest of the letter is of a private nature, and will be held until Robert can be found.

There was no person named Mason on board the Chicora. The nearest name approaching that of Mason of those who perished with the Chicora was James Malone. He had a brother living in Chicago.

RACES AT SOUTH HAVEN.

South Haven Driving Park Association Held a Two Days' Meet.

The South Haven Driving Park association held a successful meeting at their grounds in South Haven last Thursday and Friday. A large crowd being in attendance both days.

There were four horses from this section entered: Frank Phiscator's black of Baroda, Flying Gip of Coloma, Mr. Dudley's horse of Watervliet and Tom Lawrence's horse, Genius G. of Sodas.

In the five-for-all race last Friday Frank Phiscator's horse, under the skillful management of V. E. Manley, of Hartford, won two straight heats in 2:27 which is considered fast miles for a cold day. In the third heat Phiscator's horse tripped and turned a complete somersault, throwing Manley at least 40 feet and heading the horse in the opposite direction, wonderful as it may seem neither horse nor driver was injured by the accident as in the fourth heat he won in a close finish.

Brale Wescott of this city is reported to have won 750 on Phiscator's horse.

Genius G. Lawrence's horse of Sodas driven by Manley got second place in the green race Thursday and Flying Gip of Coloma won both running races. The meeting was a grand success in every particular.

M. A. Osgood, of this city, was starter.

Mother Finds Her Boys.

NILES, Oct. 10.—Perhaps a happier woman never lived than was Mrs. James Springer of this city, when a few days ago she was gladdened with a visit by her two sons, whom she had not seen for 25 years. They are Charles H. Hall, of Petoskey, and Albert Hall, of Boyne Falls. Only a few weeks ago mother and sons learned of each other's whereabouts. A quarter of a century ago Mrs. Springer resided in the northern part of the state. Her husband died and she remarried, moving to this part of the state. For some years a correspondence was kept up between mother and sons, but finally the letters ceased and all of them removing to other towns, they lost track of each other. Years passed along, and finally Mrs. Springer concluded that her two sons were dead, the latter thinking the same of their mother. A few months ago Charles Hall learned of his mother's residence here and a correspondence began, which resulted in the brothers with their families making her a visit. The reunion was a joyful one.

Was Not Diphtheria.

EDITOR EVENING NEWS: To our much surprise we were visited by the health officer who said it had been reported that we had a case of diphtheria in our family and that we had called in no doctor and were taking no precautions against exposing others. It is true our little boy was somewhat sick and his throat sore, but we were very guarded about the matter.

The health officer investigated the case and did not pronounce it diphtheria. We dread the monster and we shall take all necessary precaution if visited by it. H. BURTON.

THE found and returned yet unwarded Pingree announces that he went to Venezuela to teach that nation how to grow potatoes. Michigan voters may not thank the governor for giving away their trade secrets to cheap competitors.

THE rains that fell yesterday throughout the west and the heavy rain that visited this section today are happy rebukes to the theory that the devastation of the forests has made irrigation a general necessity. But these rebukes are too far apart to allay all fear. The destruction of the wilderness should be stopped.

BENTON Harbor is noted for getting some great fish on her hook in the way of new enterprises and, like the story of the true fisherman, the fish nearly always gets away just as the line pulls it to the water's surface. It is time that order of things was reversed. Let the program change in regard to the development of the new mineral water. The word "can't" should be obliterated from the Benton Harbor public dictionary.

JOHN E. Clark, the eminent Detroit chemist, announces positively in a letter received this morning that the Benton Harbor mineral water is superior to that at Mt. Clemens. The water at Mt. Clemens has built up a city of 8,000 people. The superior water at Benton Harbor will increase a city of 8,000 to one of 20,000, if only the people will do their part. It will put money into the pockets of every resident if only the people will give it opportunity.

NEWS OF THE STATE.

There is such a scramble for the appointment of postmaster at Ludington that Congressman Bishop has ordered the republicans to vote on the question and says that he will appoint the man selected at the election.

YAWN AND LAUGH OFTEN.
 It is not so very long ago since a foreign scientist discoursed on the benefits of yawning. This act, which is generally regarded as partaking of the nature of a tired condition, or symptom of such a condition, of the respiration and of the need for fresh air, is said to be of great service in clearing the eustachian tubes of the ears. These tubes lead from the back of the mouth to the inner side of the ear drum, and a yawning is looked-upon in this light as a hygienic exercise which benefits the structures in question.

Another scientist has no difficulty in showing that when we laugh we increase the play of tension in our lungs. One result of this increased tension is to arrest the blood flow in the lungs and to induce the taking of deep inspirations. These latter are healthful things, for many parts of our lungs are not called into active use in ordinary breathing. The apex, or top of the lung, is notably a part which does not actively participate in the movements of breathing, and as this is the special seat of consumption attack we may reasonably hold that the law of disuse explains the greater liability of this portion of the organ to the onset of disease. The free and active use of a part, strengthening and toning it, as it were, is an essential condition for health; hence laughter, by bringing into play the whole of the lungs, or at least by favoring an increase of lung work, is to be reckoned an admirable exercise.

Besides this physical effect of laughter we have also to take into account its mental side. There is a certain brain stimulus to be noted, a psychic result, in addition to the physical effect, and it is pretty certain the mental phase of a good, hearty laugh is, in its way, as healthful as is its physical aspect. Singing is also praised as an excellent lung exercise, and public speaking is as effective a lung tonic as one may wish for. The only drawback to the work of the speaker is the foul condition of the atmosphere in which he has often to do his work.—Exchange.

PERSONAL MENTIONS

—Misses Frances and Cora Hall went to Chicago last night.

—M. H. Cook is canvassing the county in the interest of Orange Judd Farmer.

—Joseph W. Johnston, auditor of the M., B. H. & C., is moving his family from South Bend to this city today.

—Frank Beaver, well known in this city, has secured a position on a Logansport newspaper as reporter.

—Prof. R. A. Kneeland went to Grand Rapids this morning. The professor is working on an idea that may mean much to the city.

—Sam Livingston, of Chicago, arrived here Saturday night to be present for arraignment in the circuit court on complaint of assaulting M. A. Jennings.

—E. E. Rouse, Edward Winans and Bert Tabor, students at the College of Physicians and Surgeons in Chicago, spent yesterday with their friends here.

—F. M. Van Horn returned from Grand Rapids Saturday where he opened up an office for the Phoenix Accident and Sick Benefit association. Twelve agents were appointed and the office placed under the management of A. E. Smith.

—Rev. Mr. Lineaweaver, of Kent, Rev. A. C. Kosler, of Elizabeth, and Rev. G. W. Kosler, of Davis, all members of the Rock River M. E. conference now in session at Chicago, came over to Benton Harbor and spent Sunday with Mr. and Mrs. John O'Donnell, Lincoln avenue. The Rev. Koslers are brothers of Mrs. O'Donnell.

—J. C. Vorhees and D. B. Edmunds returned Saturday from New Buffalo, where they have been employed by J. D. McKellar in building three dwelling houses and one store building. Mr. McKellar's contracts in that village are nearly completed and the excellent work he and his men have done are a source of pride to the residents of New Buffalo.

WILL RUN ANOTHER WEEK.

City of Milwaukee Not Laid Up for the Winter.

President J. H. Graham changed his mind about laying up the steamer City of Milwaukee last Saturday and will run her yet this week, possibly longer. The freight business is holding up so well that one steamer would not be able to handle it. The in freight from Chicago is extremely heavy.

During the storms last week when the City of Louisville was out 11 and 12 hours the long voyage was chosen as a comfort to the passengers. By coming directly across the lake the passengers would have been shook up in lively fashion. The steamer rides easy when going with or against the sea and in crossing the lake a route was taken double the length of the usual course. With only freight aboard the Louisville would point her nose straight across the lake.

A GREAT SCULPTOR.

He Will Give a Free Exhibition at E. W. Moore's.

J. B. Leoni, the sculptor, of whose clever work THE NEWS has already made mention, will give a free exhibition of his skill in the windows of E. W. Moore's store, commencing next Wednesday and continuing every afternoon and evening until Saturday night. Mr. Leoni is the artist who designed and executed a great deal of the work at the World's Fair, his most celebrated piece being the "Broken Bridge," modeled from soap, which attracted the attention of famous artists. He works with great rapidity and with the precision of a practiced eye and it is interesting to watch him. His talent came to him in youth and has been carefully cultivated as his productions show.

FEVER REACHES OUT.

Four Cases Found by Dr. Guiteras, the Expert, at Galveston, Lone Star State.

DENGUE HAS BEEN RAGING THERE

And Like at Other Places Suddenly It Is Yellow Jack—Only One Railway Open from the Texas Metropolis—A Few Hundred People Leave the Town—New Orleans Adds 37 New Cases to the List and Five Deaths—Other Points.

Galveston, Tex., Oct. 11.—Before a meeting of the Galveston board of health yesterday Dr. Guiteras made the following statement: "I have reported to Surgeon General Wyman and communicated to Health Officer Fisher, County Physician Warfield and Acting Mayor Skinner, that there are five cases of yellow fever here and three cases that have recovered from the disease. There is no doubt in my mind as to the correctness of the diagnosis in four of these cases. I have been very careful, and have made no statement as to any cases without close personal examination. The cases are scattered, and seem to have no connection. They appear to have developed in a quite confusing way, and are mixed with dengue fever. There is one at the Sealy hospital. I have reported two at St. Mary's infirmary, but find that in one at the infirmary I was mistaken." The opinion of a majority of the physicians here is that there is no yellow fever at Galveston, but that a type of dengue fever has existed for the past sixty days, and that there have been 15,000 cases of dengue and not a single death.

What Is Dengue Fever, Anyway? A meeting of citizens of Galveston has been called for the purpose of asking Dr. Wyman to keep Dr. Guiteras here until he has had time to report fully on all suspicious cases. Galveston was somewhat excited Saturday night, but yesterday the city was quiet. The Santa Fe is the only railroad open. All other roads were cut off Saturday night before any one could get out of town. The Santa Fe took out seventy-five persons Saturday night and 118 departed on yesterday's train. Forty-two people are booked for New York by steamer which sails today and forty people have left by boat for bay shore points. This constitutes the total hefting from here. The citizens claim that if these four cases are yellow fever then thousands of citizens have it, as there have been thousands of cases similar to the cases pronounced by Dr. Guiteras to be yellow fever.

No Better at the Crescent City. New Orleans, Oct. 11.—The fever situation here grew no better yesterday. Early in the evening there was a promise that Saturday's record would be equalled if it was not exceeded. New cases appeared in various portions of the city. There were several deaths, and in one case the fatality occurred not long after the report of the case was brought to the attention of the board. Two of the deaths were in Carrollton, which—relative to population—has furnished more fatal cases than any locality in the city. The official report of the board of health is as follows: New cases, 37; deaths, 5; total cases to date, 577; total deaths, 61; total cases under treatment, 276.

Sickness Among the Doctors. Among the new cases is that of Mrs. Sampson. Her husband, Dr. Sampson, and their son were taken ill two or three days ago, and the infection has spread in the premises. Another physician is on the list of cases reported yesterday Dr. Otto Lerch, but he is not reported to have a serious attack. Dr. Barnett and Dr. Howard Olliphant are both reported to be progressing favorably towards recovery.

At Other Infected Points. Jackson, Miss., Oct. 11.—There are no new cases of yellow fever at Nitta Yuma. At Edwards there are nine new cases and one death.

Mobile, Ala., Oct. 11.—Seven cases of yellow fever, two deaths in the city and one at Magazine Point, three miles distant, and three recoveries, make the record for this city for yesterday.

DECISION OF INTEREST TO LABOR.

Bonds Against Employing Non-Union Men Declared Null and Void.

Philadelphia, Oct. 11.—The common pleas court Saturday decided that the bonds of security which the clothing manufacturers were required to give to the Association of Garment Workers of America in May last before the strikers would return to work have no legal value. As security that they would not employ non-union men and would continue to pay the fixed wage scale the manufacturers were each required to give a bond of \$200. Two non-union men were found working in one of the establishments, and their discharge was immediately demanded and judgment was entered on the bond of the firm. A rule was taken by the firm before the court of common pleas to open the judgment, and the court concluded that the agreement was one-sided as the employees gave nothing in return except a promise to return to work.

Soldier Dragged by the Feet.

Chicago, Oct. 11.—The alleged punishment meted out to Private Charles Hammond, at Fort Sheridan Saturday has caused considerable mutinous talk among the enlisted men at the post, so it is said. Under orders from Captain Lovering, officer of the day, Hammond was dragged feet first by four soldiers from the guard house, down a flight of stairs to headquarters 500 yards away, upstairs; then down again and to the adjutant's quarters. Hammond's injuries are confined to bruises and scratches.

Killed by a Premature Blast.

Wakefield, Mich., Oct. 11.—By the premature explosion of a powder blast on the tenth level of the Brotherton mine Saturday two men were killed and another probably fatally injured. The killed are: Leander Peterson and Joseph Johnson. A man named Harris was probably fatally injured.

Cannot Tax for a Library.

Des Moines, Ia., Oct. 11.—The supreme court has decided that the city library board cannot force the city council to levy a small tax for the construction of a library building and for maintaining it.

TO THE PUBLIC.

As a stranger soliciting a share of your patronage it is but just to you and to myself that I make some mention of my fitness for the work I would undertake. I come from a medical family, my father, brother and many relatives being physicians. I have attended and hold credentials from leading homoeopathic and allopathic medical colleges. For eighteen years I have successfully conducted a large practice. I have held high office in State and National medical societies, and received honorary professional recognition from abroad. I have had considerable hospital experience, am something of a medical writer and author, and have been professor in reputable medical colleges.
These frank statements can be easily verified. If they commend me to your confidence it will give me pleasure to professionally advise and assist healthward all who need and desire my services.
I am prepared to and will practice all branches of medicine and surgery, but because of special research, experience and success in this direction, greatly prefer and particularly invite those suffering from obscure, complicated, delicate, and all chronic or lingering diseases to consult me. Obstinate cases that others have failed to cure are solicited.

My office is at 112 East Main street, one door east of the postoffice. Respectfully, C. EDSON COVEY, M. D.

TO THE PUBLIC.

As a stranger soliciting a share of your patronage it is but just to you and to myself that I make some mention of my fitness for the work I would undertake. I come from a medical family, my father, brother and many relatives being physicians. I have attended and hold credentials from leading homoeopathic and allopathic medical colleges. For eighteen years I have successfully conducted a large practice. I have held high office in State and National medical societies, and received honorary professional recognition from abroad. I have had considerable hospital experience, am something of a medical writer and author, and have been professor in reputable medical colleges.
These frank statements can be easily verified. If they commend me to your confidence it will give me pleasure to professionally advise and assist healthward all who need and desire my services.
I am prepared to and will practice all branches of medicine and surgery, but because of special research, experience and success in this direction, greatly prefer and particularly invite those suffering from obscure, complicated, delicate, and all chronic or lingering diseases to consult me. Obstinate cases that others have failed to cure are solicited.

My office is at 112 East Main street, one door east of the postoffice. Respectfully, C. EDSON COVEY, M. D.

AN INVITATION.

Excelsior Mineral Water is Free to the Public.

Peter English has placed a pump in the old gas well, near the pickle factory, and he invites the public to help themselves to the Excelsior Mineral water. Many persons afflicted with various ailments have commenced taking the water and some local cures will doubtless soon be in grateful evidence. It is the purpose of Mr. English to put a steam pump in the well as soon as possible so that visiting capitalists can be satisfied on the point that the supply is inexhaustible.

The more the business men of the city investigate the mineral water and the prospects for a health resort the more is their enthusiasm.

O. Westcott, the railroad contractor, who spent several years in the business of boring and drilling wells, is assisting Mr. English in finding an engine and boiler to test the supply. Mr. Westcott has made an investigation and declares the well cannot be pumped dry.

MAIL POUCH MUTILATED.

Letters With Valuable Contents Cut in Two.

The West Michigan Mail train north early Saturday morning ran over the St. Joseph mail pouch and mutilated the contents in a manner which may prove costly to somebody. The pouch lodged under the car wheels when thrown off at St. Joseph by the messenger and before it could be reached the train had passed over it.

The package of letters for patrons of the St. Joseph office was cut squarely in two and in cases where both halves could be found the letters were delivered in that condition. Some of the letters contained checks, some of them money and others were ordinary business and love letters. One contained a \$10 bill which was cut in halves and any number had checks which were badly disfigured.

The Heart Must Not be Trifled with.—Where there are symptoms of heart weakness, there should be Dr. Agnew's Cure for the Heart, it's a magical remedy, gives relief in thirty minutes, and there are thousands who testify that it cures permanently. Mrs. W. T. Rundie, of Dundalk, Ont., says: "I was for years unable to attend to my household duties. I used Dr. Agnew's Cure for the Heart, the result was wonderful, the pain left me immediately after the first dose, and a few bottles cured." Sold by H. L. Bird and Geo. M. Bell & Co.—13.

Alger Guard Election.

All members are requested to be present at the meeting of the Alger Guard at Conkey's hall, Tuesday, October 12, at 7:45 p. m., at which time a captain, first and second lieutenants will be elected for the ensuing year, also six members of the board of directors, and transact such other business as may be presented.

IN THE COURT HOUSE TOWER.

A Spinks Corners Couple Married There Saturday.

Saturday as the sun was sinking into Lake Michigan Arthur A. Brant and Nella Pope, of Spinks Corners, ascended the tower to the court house and there above the tree tops and surrounding dwellings, 400 feet above the earth, joined hands and took the vows that united them as man and wife.

The ceremony was performed by Justice St. Clair, the witnesses being Irving Hogue and Miss Edna Hadley, of Bainbridge. Mr. and Mrs. Brant is the second couple who took the matrimonial vows from the dizzy height of the court house tower.

ST. JOSEPH.

Miss Cora King has returned from Chicago.

Miss Olive Gregg, of Chicago, is the guest of her mother.

Ash Smith is in Paw Paw attending the Van Buren county fair.

John Anderson, of Chicago, is the guest of Mr. and Mrs. G. E. Smith.

Mrs. Frank King and daughter, of Chicago, are the guests of friends here.

Mrs. John Needham is assisting her husband in the county clerk's office today.

A scheme for the construction of a new opera house on the Marsh corner is quietly talked of.

John Smith, after a two weeks' vacation has resumed his duties as clerk in Howard & Pearl's drug store.

The local merchants are becoming members of the Merchants' Protective association, represented by C. R. Hutchinson of Benton Harbor.

Oliyer and George Legg have leased a piece of property of Wallace & Barnes and are erecting coops preparatory to engaging extensively in the poultry raising business. They will breed all varieties of fancy fowls and expect to establish a large industry. The incubators have already been purchased.

The Kalamazoo association of Congregational churches will assemble in St. Joseph next Monday. Thirty churches will be represented each by a pastor and two delegates. Yesterday Rev. McRoberts asked from his pulpit that all the members who could entertain one or more delegates should inform him.

Special low price sale of picture frames this week at Judson E. Rice's, 156 Pipestone street.

THE FINEST ARTIST.

Wile Bought His Own Clothes and His Desk.

The auction sale of the fixtures of the Brunswick billiard parlors and the personal effects of Eugene I. Wile, was conducted by Constable Jap Fye, auctioneer.

The Brunswick Balke-Blake company bought four of the billiard and pool tables and E. Brant bought the remaining one. Mr. Brant also bought the little safe and other fixtures and P. W. Hall a billiard cue and some other articles.

Wile was at the sale and he bid in his desk and contents at \$30. The contents of the desk was what Wile evidently wanted for the desk was not worth \$10 in the market by itself. For fear the desk might be levied on by creditors again Wile was sharp enough to buy it in the name of someone else. He bid in his clothes and other personal effects for \$50.

Worth Appreciated.

In his younger days the late Mr. W. H. Smith was usually present to see the morning papers dispatched, and one morning something at one of the offices had gone wrong, so that there was great risk of that paper missing the train. Mr. Smith, recognizing the difficulty, threw off his coat, worked away as hard as any of his subordinates and had the satisfaction of seeing the vans leave with just time to catch the trains.

He was afterward leaning over one of the tables reading a paper, still in his shirt sleeves, when one of the men, mistaking him for a mate, gave him a resounding smack on his broad back, exclaiming:

"Well, Jack, old man, we got that lot away smartly." When "W. H." raised himself, the man rushed away, terrified by his blunder.

On coming on duty at night the man received a note addressed to him, which he concluded contained the "sack," but to his surprise it was to inform him that from the end of that week he would be a foreman. "W. H." had sense enough to see that a man who was so delighted at having accomplished a difficult task for his employers was made of the right stuff.—Pearson's Weekly.

Motherly Solitude.

Miss Ante—It's funny about our old cat. We can't keep her away from the poker table.

Mr. Age—Nothing strange about that. Naturally she's looking after the "kitty."—New York Tribune.

Spain has 22,966 elementary schools, but only 41 per cent of the children receive even the rudiments of an education. The teachers receive only \$25 to \$400 per year, and most of them are unable to collect that.

It is said that it costs \$23.82 an acre to raise wheat in Massachusetts.

Matter of Interest to the Alger Guard.

Several new names have been added to the list of applicants for membership in the Alger Guard and they are good material too.

It will be Chester C. Sweet or Harry Pound for captain for the next year. As the boys seem to be in favor of either it is hard to make a choice.

One of the younger but prominent members of the company suggested the following as officers for 1897-8, C. C. Sweet, captain; J. H. Pound, first lieutenant; Harry Kidd, second lieutenant; which would make a good combination.

All members wishing to pay their dues can do so by seeing Quartermaster Albert Sykes who has that matter in charge.

Jake Simon will be at the Alger Guard meeting tomorrow night to make a proposition to the company which will be of great benefit to them if accepted and should have the attention of every member.

If an extra session of the legislature is held, Senator Blakeslee, who is much interested in the future of the Alger Guard, has promised to introduce a bill to provide for the support of this company in the naval militia until the next regular session and as the military board is in favor of such a movement there is no doubt but what it will pass without any difficulty.

Pipe Made of a Seal's Tusk.

A pipe made out of a seal's tusk was seen at the Weare office recently. The stem is nearly a foot long and is quaintly illustrated with representations of life under the arctic circle.

The artist was an Indian, and the little sketches in India ink show up very well against the ivory background.

There is a reindeer about to fall under the arrow of an archer. There is a sledge drawn by dogs. Fir trees, topees, a fishing scene, where the captives are being brought to shore in a net, are all true to life.

Another ornament of the same character is a pair of walrus tusks, with delineations of other Alaskan scenes, with the fox and the white polar bear in evidence; also an Eskimo leveling a gun at the latter.

It is said that to add to the terrors of overland travel in the long winter months the larger wild animals are often driven by hunger to attack the trailmen, and packs of ferocious wolves will besiege a camp for days, attacking the horses and reindeer as well as the dogs. More than one caravan has been done to death in this manner, as the whitened bones strewn along the tracks show.—Chicago Inter Ocean.

ELEVEN ACCUSED MEN

They Were Arraigned in the Circuit Court This Morning.

ALL "NOT GUILTY" BUT ONE.

Lewis Aké Confesses His Guilt and Sentenced to Jackson This Afternoon.

Eleven alleged criminals stood up before the bar in the circuit court at the opening of the October term this morning for assignment. All pleaded not guilty except one and he was Lewis Aké, accused of stealing a bicycle, the property of Dr. Belknap, of Niles. Aké is also one of the five prisoners who sawed to liberty from the county jail last summer and one of the two escaped convicts who were recaptured after two weeks of freedom. It was expected that Aké's wife, who lives in Chicago, would be present at his arraignment but she failed to put in an appearance. Two of his brothers are here, however. Aké will be sentenced this afternoon without seeing his wife.

The other prisoners arraigned, all of whom pleaded not guilty, follow:

Samuel Lijington, charged with committing a murderous assault upon M. A. Jennings. Charles N. Sears appointed by the court to defend him.

Peter Tonnelier, selling liquor without giving a bond. Hammond & Hammond attorneys for the defendant.

William Burns, assault with intent to murder. H. W. Davis appointed to defend.

Peter Peterson, assault with intent to murder. Gore & Harvey attorneys for defendant.

Archie Pool, assault with intent to murder. I. W. Riford appointed by the court to defend.

George Roberts, larceny. Hammond & Hammond attorneys for the defendant.

John Morgan, larceny. H. W. Davis appointed to defend.

John Stathers, sodomy. Hammond & Hammond attorneys for the defendant.

Amos Day, carnal knowledge of female under the age of 16 years. H. W. Davis appointed by the court to defend.

Thomas Colburn, larceny from dwelling. H. W. Davis appointed for defendant.

A. Jeslain, charged with assault with intent to kill was arraigned this afternoon and plead not guilty.

F. B. Johnson and James A. Johnson, charged with violation of the liquor law were arraigned and plead not guilty.

In the case of Fred Monich against Henry S. Williamson, an order to dismiss the special appeal and grant the plaintiff an attorney fee of \$10 was entered.

In the case of Minerva J. Godown against Fred E. Avery, security for costs was ordered entered.

A motion to dismiss the case of the people against Lewis Bell was taken under advisement by the court.

Four criminal cases were nolle prossed upon the recommendation of Prosecutor Valentine. They were: David Goldbaum, receiving stolen property; Arthur Lambert, larceny; Fred Bohn, attempt to rob and Wesley Fowler, forgery.

Security for costs were ordered in the cases of Tabor against Brower and Eugene W. Cribbs against Patrick Yore.

In nearly every case the attorneys were ready for trial, a condition so unusual that Judge Coolidge felt impelled to remark upon it.

The judge proposed a change in the terms of court so as to have two terms between January and May, the third term in September and fourth in November. At present the terms are January 11, March 15, May 17 and October 11. The change as indicated was satisfactory to the members of the bar and will probably be made.

Court will adjourn tonight until Monday, October 25 when the jury will be present and the trial of criminal cases will begin. Here is the first week's assignment made by the court today.

October 25—John O'Brien, assault and battery; Timothy Talbot, assault and battery; William Burns, assault with intent to murder.

October 26—Alfred Olsen, assault with intent to do great bodily harm; Archie Pool, assault with intent to murder; Peter Tonnelier, selling liquor without giving bonds.

October 27—Amos Day, carnal knowledge of female under age of 16; Lewis Bell, violation of Sunday law; Thomas Colburn, larceny from dwelling; John Morgan, larceny.

October 28—Fred Colgrove, George Roberts, larceny; Jacob Hushaw, surety for peace; Harry S. Whitney, assault and battery.

October 29—Peter Peterson, assault with intent to murder.

D. E. Jennings, who has been running a barber shop on Sixth street and recently sold out to John Slater of Chicago, has opened one in the Shornhorst building on Territorial street and will be pleased to see his old customers.

Mrs. L. M. Fitch, hair emporium, combings made up in all the latest styles.

THE WEATHER.

Showers tonight and probably Tuesday. Brisk southwesterly winds.

OLD COURT HOUSE.

Chicago Man Wants to Buy and Convert It Into a Hotel.

The board of supervisors has received a letter from J. Sherlock Allen of Chicago and it was placed before the board this morning. Mr. Allen offers \$1,250 for the old county buildings at Berrien Springs. The offer will be considered at 10 o'clock tomorrow morning.

If the offer is accepted Mr. Allen will remodel them into a theatre, hotel and a public library and gymnasium.

STRUBEN IS OUT.

No Longer Interested in the Kalamazoo Firm.

Mr. Struben, the Kalamazoo gentleman who was here last week to declare off all negotiations for the purchase of the Buss factory, was not a member of the Ballhouse & Struben firm at the time of his visit, the firm having dissolved nearly two weeks before. Mr. Ballhouse has secured a new partner and will remain in Kalamazoo. Prof. Kneeland says in regard to the charge that he kept the firm away from Benton Harbor:

"Mr. Struben is not a member of the firm of Ballhouse & Struben, they having dissolved partnership twelve days before he came to Benton Harbor last week, therefore was not here to buy the Buss works as he claimed. All parties to the deal were notified by Mr. Ballhouse two weeks before that they could not buy the Buss works. Mr. Struben is a mechanic but is not possessed of money. Mr. Ballhouse was the business end of the concern and is now going on with the old business with a partner in place of Struben and instead of a disagreement between Ballhouse and Kneeland the opposite is the truth. Wheelbarrows are now being made and shipped and there is no disagreement as to terms. Ballhouse made Kneeland an offer weeks since and the offer was accepted by Kneeland in case the business was properly pushed and they came to Benton Harbor. Kneeland never made any demands as to royalty that were not readily accepted verbally or agreed upon."

THE NEWS has seen letters from Ballhouse to Kneeland dated September 30 and October 2 which shows above facts to be true. All the new improvements as to new patents thought of by Struben are known to Mr. Kneeland all being on principles previously gone over by Kneeland, such as having the back wheel work upon a pivot is one.

Having studied the question months in advance of others Mr. Kneeland has other patents pending that people know nothing of, that inventors would run onto in the patent office. German, English and American inventors have gone over the ground thoroughly trying to get a wheelbarrow with a back or auxiliary wheel but Mr. Kneeland is the only one that has hit upon a simple inexpensive and practical working device. Having had two years' experience in searching the patent office records he has knowledge of every device of the kind in the world. It has cost a good deal of money to get this knowledge but all will have to pass through it who attempt to secure a patent on a wheelbarrow attachment.

GLORIOUS RAIN.

Several Inches of Dampness Fell Here Today.

Heavy rains, just what this country needed, fell in showers at short intervals today. The gutters were running full with water and rubbers were needed to cross any street and preserve the feet today.

The rain will do a wonderful part toward cheering the farmers, especially those who have wheat sown. The rain will stimulate the business of the city.

ELECT A DRAIN COMMISSIONER

That Will Be Part of the Business of the Board of Supervisors.

The board of supervisors convened at 1 o'clock this afternoon in its room in the court house. The session will continue a week. The most important business is the equalization of taxes. Coming before the board this term will also be the matter of electing a county drain commissioner, a school examiner and a superintendent of the poor to succeed Freeman Franklin, resigned. County Drain Commissioner Burbank is a candidate to succeed himself. Other candidates for that office are Supervisor Glavin, of New Buffalo, M. W. Jennings, of Benton Harbor, and Frank Heim, of Oronoko.

The matter of the election of school examiner will be taken up at 10 o'clock Wednesday, the election of drain commissioner at 10 o'clock Thursday and the election of a chairman of the board of superintendents of the poor, to succeed Freeman Franklin will be taken up at 2 o'clock Thursday afternoon.

THIRD YEAR—NO. 627.

BENTON HARBOR, MICH., MONDAY, OCTOBER 11, 1897.

ONE CENT.

THE CREED QUESTION.

It Received the Attention of Rev. George A. Sahlin Last Evening.

SENTIMENTS SEEM SENSIBLE.

Says the Universalist Creed Should be Large Enough for All or Else Have No Creed.

The Universalist convention of Michigan by an apparently unanimous vote, in the closing hour of the session, after many delegates had departed, instructed its delegates and officers to vote against the Meriden creed and to settle the question upon the basis of the Boston minister's proposition, which is to hold the present creed as a motto or declaration of our faith, but in no case to use it as a test of fellowship, but one must subscribe to the principles contained.

Rev. George A. Sahlin, pastor of the Universalist church in this city refused to go to Chicago bound by such instruction. First—because it was applying political methods to religious and moral affairs; Second—it established the unit rule; Third—because it left us no room for a minority representation in the convention. The religious convictions of a minority already in fellowship should be impartially considered; Fourth—because it deprived the delegates of the power to use discretion in any unforeseen contingency that might arise.

It was stated that the creed question is to be settled in Chicago. But one of two things can be accomplished: the Meriden creed, if adopted, abolishes the Winchester confession of faith. If the Meriden creed is defeated the Winchester confession remains in full force. The Boston minister's proposition cannot be legally adopted under two years, because it is in nature an amendment to the constitution and the by-laws of the general convention.

Last evening Mr. Sahlin took up the creed question and propounded some very pertinent inquiries concerning the same. He took for his text the following from St. Mark, 15:1: "And straightway in the morning the chief priests with the elders and scribes, and the whole council, held a consultation, and bound Jesus, and carried him away, and delivered him up to Pilate."

The pastor said: "Pilate stands for public opinion. He had no convictions of his own. Public opinion crucified Jesus. Public opinion manufactures creeds. I would believe in creeds if it could be shown Jesus had one. The word creed comes from credo, I believe. A man has a right to his own creed but no right to impose it upon others. The Universalist church is not alone in the agitation of creed and ecclesiasticism.

The Methodist church by a close margin votes that women are not wanted in authority. The Congregational church invites the Rev. B. Fay Mills to step down and out because he dares act the man in co-operating with those of a liberal faith. It has been discovered that four thousand Methodist clergymen can thwart the will of three million laymen and the rest of the clergymen. Mankind is beginning to understand that character should be the fruits of religion and that a knave is such no matter what creed, political or religious, shelters him. An honest man is the noblest work of God, and the church, not the sectarian Jesus did not indulge in a creed. He said: God is love, not that he believed God to be love. God is a spirit, the truth shall make you free. The kingdom of heaven is, not going to be. He would have his disciples say, I know God is love, and not that I believe. If we should say of a friend we believe him to be an honest man, nothing could eradicate the doubt which would arise in the mind of the questioner. I know him to be an honest man destroys the doubt and tells the truth.

It is a strange thing that the creed question should arise in the Universalist church. The Winchester Confession was adopted because Old New England forced the people to pay taxes to maintain the Congregational churches. Universalism had no legal standing until it adopted a creed. It was forced to do so by law against which it protested in spirit. The creed was not used as a test of fellowship until after 1870 and even now there are many Universalist churches refusing to adopt it. The Roman Catholic, the Greek Catholic, and many protestant denominations accept in common the Apostle's creed, and the Athanasian creed. What delightful harmony exists between them all. The letter killeth, the spirit giveth life.

If the Universalists are going to settle the creed question let them settle it right. They should have a creed large enough for all or be brave enough to declare themselves a creedless

church, insisting only that the righteousness of Christ should be the test of fellowship. The church should help men and women to become better. Simple belief will not do this, belief must become conviction and the conviction of righteousness emancipates mankind from sin.

Scriptural Arithmetic.

Rev. Wilson, of the Christian church, commenced his series of sermons on "Scriptural Arithmetic" last night. At one side of the pulpit he had a blackboard on which were the figures 5,000,000. He asked the congregation where he should begin to read and was told at the right hand side. After reading the figures as they were he crossed off two of the ciphers and asked the congregation to again read the number. He compared reading the bible with reading numbers by saying it made all the difference in the world where you began to read. He said if a teacher would tell a boy who wished to study arithmetic that it made no difference where he began, and the boy should turn to the middle of the book and try to work the problems in long division and fractions without first learning addition and subtraction he would soon throw the book to one side and declare there was no sense in it. The same way with the bible. Too many do not make the right beginning when they study the bible, hence some throw the book to one side and declare it a humbug.

His next sermon of the series will be delivered next Sunday evening at which time he will speak upon "Addition."

At the Congregational

The Congregational church was very prettily decorated, it being the occasion of the harvest festival. The platform was covered with fruits and vegetables and branches of trees, the leaves of which reflected all the autumnal colors, forming a background which produced an exceedingly beautiful effect. The sermon in the morning was to the old people and the church was well filled, the greater number being people well advanced in life. In the evening the address was to the young men. This will be followed a month later by one to young women.

The Episcopal Church

Rev. M. S. Woodruff, pastor of the Episcopal church, preached one of his characteristic doctrinal sermons last evening which was very edifying.

Another Wheel Stolen

A Topic bicycle No. 12, owned by Frank King, was stolen from the rack in front of Edgar Nichols' drug store Saturday night. The theft occurred about 8 o'clock. Young King had placed the wheel in the rack and stepped inside to make a purchase. When he returned the wheel was gone. It was enameled in green, and was one of the first wheels manufactured by the Topic people.

MURDOCH-MERRILL NUPTIALS.

Very Happy Marriage at the Merrill Home Last Night.

Frank B. Murdoch and Miss Minnie L. Merrill, only daughter of Ex-alderman and Mrs. L. L. Merrill, were united in marriage last night at the Merrill home on Ogden avenue, the ceremony being performed by Rev. George A. Sahlin at 6:30 o'clock.

The marriage was witnessed by a few of the relatives and most intimate friends of the principals. Mr. Murdoch's parents and brother and sister of Berrien Springs were present. After the ceremony a wedding supper was served. Some beautiful and very valuable presents were given.

Mr. and Mrs. Murdoch will leave for Lawrence where Mr. Murdoch, who is a civil engineer, is employed with the surveying corps of the Milwaukee, Benton Harbor & Columbus railway.

MAY HAVE BEEN ON CHICORA.

Bottle Picked Up Containing Significant Message

VALPARAISO, Ind., Oct. 11.—A long-necked wine bottle, which shows evidence of having been in the water a long time, was picked up on the beach of Lake Michigan, west of Chesterson, by E. W. Miller, of Crisman, containing a note signed by Ed Mason to his brother Robert, 52 Dearborn street, Chicago. Mason is supposed to have been on the steamer Chicora, which was lost on Lake Michigan three years ago. The note was headed, "Steamer Chicora, January, 1895," the date not being discernable, and stating that the vessel had gone to pieces off the coast of Michigan. The rest of the letter is of a private nature, and will be held until Robert can be found.

There was no person named Mason on board the Chicora. The nearest name approaching that of Mason of those who perished with the Chicora was James Malone. He had a brother living in Chicago.

RACES AT SOUTH HAVEN.

South Haven Driving Park Association Held a Two Days' Meet.

The South Haven Driving Park association held a successful meeting at their grounds in South Haven last Thursday and Friday. A large crowd being in attendance both days.

There were four horses from this section entered: Frank Phisecator's black of Baroda, Flying Gip of Coloma, Mr. Dudley's horse of Watervliet and Tom Lawrence's horse, Genius G. of Sodus.

In the five-for-all race last Friday Frank Phisecator's horse, under the skillful management of V. E. Manley, of Hartford, won two straight heats in 2:27 which is considered fast miles for a cold day. In the third heat Phisecator's horse tripped and turned a complete somersault, throwing Manley at least 40 feet and heading the horse in the opposite direction, wonderful as it may seem neither horse nor driver was injured by the accident as in the fourth heat he won in a close finish.

Brale Wescott of this city is reported to have won 750 on Phisecator's horse.

Genius G. Lawrence's horse of Sodus driven by Manley got second place in the green race Thursday and Flying Gip of Coloma won both running races.

The meeting was a grand success in every particular.

M. A. Osgood, of this city, was starter.

Mother Finds Her Boys.

NILES, Oct. 10.—Perhaps a happier woman never lived than was Mrs. James Springer of this city, when a few days ago she was gladdened with a visit by her two sons, whom she had not seen for 25 years. They are Charles H. Hall, of Petoskey, and Albert Hall, of Boyne Falls. Only a few weeks ago mother and sons learned of each other's whereabouts. A quarter of a century ago Mrs. Springer resided in the northern part of the state. Her husband died and she remarried, moving to this part of the state. For some years a correspondence was kept up between mother and sons, but finally the letters ceased and all of them removing to other towns, they lost track of each other. Years passed along, and finally Mrs. Springer concluded that her two sons were dead, the latter thinking the same of their mother. A few months ago Charles Hall learned of his mother's residence here and a correspondence began, which resulted in the brothers with their families making her a visit. The reunion was a joyful one.

Was Not Diphtheria.

EDITOR EVENING NEWS: To our much surprise we were visited by the health officer who said it had been reported that we had a case of diphtheria in our family and that we had called in no doctor and were taking no precautions against exposing others. It is true our little boy was somewhat sick and his throat sore, but we were very guarded about the matter.

The health officer investigated the case and did not pronounce it diphtheria. We dread the monster and we shall take all necessary precaution if visited by it. H. BURTON.

THE found and returned yet unrewarded Pingree announces that he went to Venezuela to teach that nation how to grow potatoes. Michigan voters may not thank the governor for giving away their trade secrets to cheap competitors.

THE rains that fell yesterday throughout the west and the heavy rain that visited this section today are happy rebukes to the theory that the devastation of the forests has made irrigation a general necessity. But these rebukes are too far apart to allay all fear. The destruction of the wilderness should be stopped.

BENTON Harbor is noted for getting some great fish on her hook in the way of new enterprises and, like the story of the true fisherman, the fish nearly always gets away just as the line pulls it to the water's surface. It is time that order of things was reversed. Let the program change in regard to the development of the new mineral water. The word "can't" should be obliterated from the Benton Harbor public dictionary.

JOHN E. Clark, the eminent Detroit chemist, announces positively in a letter received this morning that the Benton Harbor mineral water is superior to that at Mt. Clemens. The water at Mt. Clemens has built up a city of 8,000 people. The superior water at Benton Harbor will increase a city of 8,000 to one of 20,000, if only the people will do their part. It will put money into the pockets of every resident if only the people will give it opportunity.

NEWS OF THE STATE.
There is such a scramble for the appointment of postmaster at Ludington that Congressman Bishop has ordered the republicans to vote on the question and says that he will appoint the man selected at the election.

YAWN AND LAUGH OFTEN.

Scientist Declares That Both Are Highly Beneficial.

It is not so very long ago since a foreign scientist, discoursed on the benefits of yawning. This act, which is generally regarded as partaking of the nature of a tired condition, or symptom of such a condition, of the respiration and of the need for fresh air, is said to be of great service in clearing the eustachian tubes of the ears. These tubes lead from the back of the mouth to the inner side of the ear drum, and a yawning is looked upon in this light as a hygienic exercise which benefits the structures in question.

Another scientist has no difficulty in showing that when we laugh we increase the play of tension in our lungs. One result of this increased tension is to arrest the blood flow in the lungs and to induce the taking of deep inspirations. These latter are healthful things, for many parts of our lungs are not called into active use in ordinary breathing. The apex, or top of the lung, is notably a part which does not actively participate in the movements of breathing, and as this is the special seat of consumption attack we may reasonably hold that the law of disuse explains the greater liability of this portion of the organ to the onset of disease. The free and active use of a part, strengthening and toning it, as it were, is an essential condition for health; hence laughter, by bringing into play the whole of the lungs, or at least by favoring an increase of lung work, is to be reckoned an admirable exercise.

Besides this physical effect of laughter we have also to take into account its mental side. There is a certain brain stimulus to be noted, a psychic result, in addition to the physical effect, and it is pretty certain the mental phase of a good, hearty laugh is, in its way, as healthful as is its physical aspect. Singing is also praised as an excellent lung exercise, and public speaking is as effective a lung tonic as one may wish for. The only drawback to the work of the speaker is the foul condition of the atmosphere in which he has often to do his work.—Exchange.

—M. H. Cook is canvassing the county in the interest of Orange Judd Farmer.

—Joseph W. Johnston, auditor of the M. B. H. & C., is moving his family from South Bend to this city today.

—Frank Beaver, well known in this city, has secured a position on a Logansport newspaper as reporter.

—Prof. R. A. Kneeland went to Grand Rapids this morning. The professor is working on an idea that may mean much to the city.

—Sam Livingston, of Chicago, arrived here Saturday night to be present for arraignment in the circuit court on complaint of assaulting M. A. Jennings.

—E. E. Rouse, Edward Winans and Bert Tabor, students at the College of Physicians and Surgeons in Chicago, spent yesterday with their friends here.

—F. M. Van Horn returned from Grand Rapids Saturday where he opened up an office for the Phoenix Accident and Sick Benefit association. Twelve agents were appointed and the office placed under the management of A. E. Smith.

—Rev. Mr. Lineaweaver, of Kent, Rev. A. C. Kosier, of Elizabeth, and Rev. G. W. Kosier, of Davis, all members of the Rock River M. E. conference now in session at Chicago, came over to Benton Harbor and spent Sunday with Mr. and Mrs. John O'Donnell, Lincoln avenue. The Rev. Kosiers are brothers of Mrs. O'Donnell.

—J. C. Vorhees and D. B. Edmunds returned Saturday from New Buffalo, where they have been employed by J. D. McKellar in building three dwelling houses and one store building. Mr. McKellar's contracts in that village are nearly completed and the excellent work he and his men have done are a source of pride to the residents of New Buffalo.

WILL RUN ANOTHER WEEK.

City of Milwaukee Not Laid Up for the Winter.

President J. H. Graham changed his mind about laying up the steamer City of Milwaukee last Saturday and will run her yet this week, possibly longer. The freight business is holding up so well that one steamer would not be able to handle it. The in freight from Chicago is extremely heavy.

During the storms last week when the City of Louisville was out 11 and 12 hours the long voyage was chosen as a comfort to the passengers. By coming directly across the lake the passengers would have been shook up in lively fashion. The steamer rides easy when going with or against the sea and in crossing the lake a route was taken double the length of the usual course. With only freight aboard the Louisville would point her nose straight across the lake.

Two Thugs Who Held Up an Electric Line Car and Robbed the Passengers.

HAD TO WORK IT IN THE DARK.

Passengers Take Advantage of the Situation to Hide Their Valuables in Their Shoes and Elsewhere—Land Swindle Being Worked in West Virginia Property by an Old System—Good Time Not to Buy—Cowardly Murder at Chicago.

Portland, Or., Oct. 11.—A car on the Oregon City electric line was held up by two masked men at Meldrum station, four miles from Oregon City, about 7 o'clock last night. There were thirty-five passengers on board and the highwaymen went through the pockets of all of them, getting about \$90. The motor-man slowed down when he came to the switch at Meldrum station. One of the robbers jumped on the front of the car, and with a revolver in his hand ordered the motorman to stop the car, while the second robber climbed on the rear end. Conductor John Anderson stepped inside and quickly turned out the lights, but he was held a prisoner by the man on the rear platform, who stood guard with a revolver. The robber who boarded the car in front made the motorman go inside and then he quietly searched each passenger, joking as he went through the car. Many of the passengers put their money and valuables in their shoes or dropped them on the floor.

How Some People Saved Their Cash.
One man had \$18 in his pocketbook, but he put all except 70 cents in his shoes, and when his turn came to hand out his money he simply gave up the 70 cents and the robber was satisfied. Several ladies on the car showed rare presence of mind by putting their money and valuables in their stockings. After interviewing every passenger on the car the thugs backed out, all the time keeping their revolvers ready, and disappeared in the woods. The car then pulled out for Portland, arriving about 8 o'clock. The police were notified and detectives immediately sent in pursuit of the robbers.

WORKING AN OLD SWINDLE.
Which Makes It Well to Look Closely to West Virginia Land Titles.

Wheeling, W. Va., Oct. 11.—A land swindle similar to that which has been worked in some western states is being operated by some parties outside of this state. In West Virginia there are enormous tracts of undeveloped timber and coal lands lying in the interior, and this fact has caused the swindlers to turn their attention to them as an inviting field in which to work their scheme. A dispatch from McDowell county, lying in the extreme southernmost portion of the state, says that inside the last two months deeds have been admitted to record there purporting to convey several thousand acres of valuable coal land for considerations aggregating several hundred thousand dollars, which are believed to be purely fraudulent. There are now over 2,000,000 acres on the land books, while the county only contains about 600,000 acres all told.

The scheme of fraud is simple enough, and has been worked by the same parties for some time. The swindlers prepare a deed for a large tract of land in the county and have it acknowledged before some fictitious notary public in a far-away state. They send it to McDowell county, the dispatch states, to be recorded, and have the clerk of the county court forward them certified copies of the deed from the record. This places them in a position to dispose of the pretended titles for a good price to unsuspecting parties.

It is not unusual for a stranger to turn up at Welch, which is the county seat of McDowell county, with a deed for several thousand acres of land which is all straight on the record, but when he comes to look for the land he cannot find it. These frauds are not committed by persons in this state, to anybody's knowledge, but are by outside parties. Efforts are being made to ascertain their identity.

Dastardly Murder at Chicago.
Chicago, Oct. 11.—Footpads yesterday held up Frank Brunnstein, a newspaper carrier 60 years old, and after struggling with him for a few pennies and nickels amounting to \$1.80, shot the old man and made their escape. Brunnstein died shortly afterwards.

Sale of the Union Pacific Railway.
Washington, Oct. 11.—Attorney General McKenna Saturday issued an official statement announcing that the government had decided not to appeal the Union Pacific foreclosure suit, but to allow the road to be sold on Nov. 1 in consideration of the Union Pacific reorganization committee raising its guaranteed bid from \$45,745,059 to \$50,000,000. The road, he added, is to be sold to the highest bidder, but with a minimum bid guaranteed as stated.

Debs' Colonization Plan.
New York, Oct. 11.—Eugene V. Debs spoke to an audience of 1,000 men and women. Colonel Richard Hinton, a member of the colonization commission of the Social Democracy, outlined the plan of the commission and said that within a month they would be able to colonize 5,000 families in one of the great western states.

Will Found Colleges in This Country.
New York, Oct. 11.—The announcement is made that Dr. Thomas W. Evans, the American dentist of Paris, whose wealth is variously estimated at from \$30,000,000 to \$35,000,000, will spend a part of that huge fortune in founding and maintaining educational institutions in different cities of this country.

John W. Gates to Have a New Post.
Cleveland, Oct. 11.—It is rumored among the iron and steel men here that John W. Gates will soon resign the presidency of the Illinois Steel company to become head of the Consolidated Steel and Wire company, with plants in various cities.

FEVER REACHES OUT.

Four Cases Found by Dr. Guiteras,
the Expert, at Galveston,
Lone Star State.

DENGUE HAS BEEN RAGING THERE

And Like at Other Places Suddenly It Is
Yellow Jack—Only One Railway Open
from the Texas Metropolis—A Few Hun-
dred People Leave the Town—New Or-
leans Adds 27 New Cases to the List and
Five Deaths—Other Points.

Galveston, Tex., Oct. 11.—Before a
meeting of the Galveston board of health
yesterday Dr. Guiteras made the follow-
ing statement: "I have reported to Sur-
geon General Wyman and communicated
to Health Officer Fisher, County Physi-
cian Warfield and Acting Mayor Skin-
ner, that there are five cases of yellow
fever here and three cases that have re-
covered from the disease. There is no
doubt in my mind as to the correctness
of the diagnosis in four of these cases.
I have been very careful, and have made
no statement as to any cases without
close personal examination. The cases
are scattered, and seem to have no con-
nection. They appear to have developed
in a quite confusing way, and are mixed
with dengue fever. There is one at the
Sealy hospital. I have reported two at
St. Mary's infirmary, but find that in
one at the infirmary I was mistaken." The
opinion of a majority of the physi-
cians here is that there is no yellow fe-
ver at Galveston, but that a type of den-
gue fever has existed for the past sixty
days, and that there have been 15,000
cases of dengue and not a single death.

What Is Dengue Fever, Anyway?
A meeting of citizens of Galveston has
been called for the purpose of asking Dr.
Wyman to keep Dr. Guiteras here until
he has had time to report fully on all
suspicious cases. Galveston was some-
what excited Saturday night, but yester-
day the city was quiet. The Santa Fe
is the only railroad open. All other
roads were cut off Saturday night before
any one could get out of town. The Santa
Fe took out seventy-five persons Satur-
day night and 118 departed on yester-
day's train. Forty-two people are booked
for New York by steamer which sails to-
day and forty people have left by boat
for bay shore points. This constitutes
the total hefting from here. The citizens
claim that if these four cases are yellow
fever then thousands of citizens have it,
as there have been thousands of cases
similar to the cases pronounced by Dr.
Guiteras to be yellow fever.

No Better at the Crescent City.
New Orleans, Oct. 11.—The fever situ-
ation here grew no better yesterday.
Early in the evening there was a prom-
ise that Saturday's record would be
equaled if it was not exceeded. New
cases appeared in various portions of the
city. There were several deaths, and in
one case the fatality occurred not long
after the report of the case was brought
to the attention of the board. Two of the
deaths were in Carrollton, which—rela-
tive to population—has furnished mor-
tal cases than any locality in the city.
The official report of the board of
health is as follows: New cases, 37;
deaths, 5; total cases to date, 577; total
deaths, 61; total cases under treatment,
276.

Sickness Among the Doctors.
Among the new cases is that of Mrs.
Sampson. Her husband, Dr. Sampson,
and their son were taken ill two or three
days ago, and the infection has spread
in the premises. Another physician is
on the list of cases reported yesterday.
Dr. Otto Lerch, but he is not reported to
have a serious attack. Dr. Barnett and
Dr. Howard Gilchrist are both reported to
be progressing favorably towards recov-
ery.

At Other Infected Points.
Jackson, Miss., Oct. 11.—There are no
new cases of yellow fever at Nitta Yuma.
At Edwards there are nine new cases
and one death.

Mobile, Ala., Oct. 11.—Seven cases of
yellow fever, two deaths in the city and
one at Magazine Point, three miles dis-
tant, and three recoveries, make the
record for this city for yesterday.

DECISION OF INTEREST TO LABOR.

Bonds Against Employing Non-Union Men
Declared Null and Void.

Philadelphia, Oct. 11.—The common
pleas court Saturday decided that the
bonds of security which the clothing
manufacturers were required to give to
the Association of Garment Workers of
America in May last before the strikers
would return to work have no legal
value. As security that they would not
employ non-union men and would con-
tinue to pay the fixed wage scale the
manufacturers were each required to
give a bond of \$200. Two non-union
men were found working in one of the
establishments, and their discharge was
immediately demanded and judgment
was entered on the bond of the firm. A
rule was taken by the firm before the
court of common pleas to open the judg-
ment, and the court concluded that the
agreement was one-sided as the em-
ployees gave nothing in return except a
promise to return to work.

Soldier Dragged by the Feet.

Chicago, Oct. 11.—The alleged punish-
ment meted out to Private Charles
Hammond, at Fort Sheridan Saturday
has caused considerable mutinous talk
among the enlisted men at the post, so
it is said. Under orders from Captain
Lovering, officer of the day, Hammond
was dragged feet first by four soldiers
from the guard house, down a flight of
stairs to headquarters 500 yards away,
upstairs; then down again and to the
adjutant's quarters. Hammond's in-
juries are confined to bruises and
scratches.

Killed by a Premature Blast.

Wakefield, Mich., Oct. 11.—By the pre-
mature explosion of a powder blast on
the tenth level of the Brotherton mine
Saturday two men were killed and an-
other probably fatally injured. The
killed are: Leander Peterson and Joseph
Johnson. A man named Harris was prob-
ably fatally injured.

Cannot Tax for a Library.

Des Moines, Ia., Oct. 11.—The supreme
court has decided that the city library
board cannot force the city council to
levy a 2-mill tax for the construction of
a library building and for maintenance
of the public library.

AN INVITATION.

Excelsior Mineral Water is Free to the Public.

Peter English has placed a pump in the old gas well, near the pickle factory, and he invites the public to help themselves to the Excelsior Mineral water. Many persons afflicted with various ailments have commenced taking the water and some local cures will doubtless soon be in grateful evidence.

It is the purpose of Mr. English to put a steam pump in the well as soon as possible so that visiting capitalists can be satisfied on the point that the supply is inexhaustible.

The more the business men of the city investigate the mineral water and the prospects for a health resort the more is their enthusiasm.

O. Westcott, the railroad contractor, who spent several years in the business of boring and drilling wells, is assisting Mr. English in finding an engine and boiler to test the supply. Mr. Westcott has made an investigation and declares the well cannot be pumped dry.

MAIL POUCH MUTILATED.

Letters With Valuable Contents Cut in Two.

The West Michigan Mail train north early Saturday morning ran over the St. Joseph mail pouch and mutilated the contents in a manner which may prove costly to somebody. The pouch lodged under the car wheels when thrown off at St. Joseph by the messenger and before it could be reached the train had passed over it.

The package of letters for patrons of the St. Joseph office was cut squarely in two and in cases where both halves could be found the letters were delivered in that condition. Some of the letters contained checks, some of them money and others were ordinary business and love letters. One contained a \$10 bill which was cut in halves and many number had checks which were badly disfigured.

The Heart Must Not be Trifled with.—Where there are symptoms of heart weakness, there should be Dr. Agnew's Cure for the Heart, it's a magical remedy, gives relief in thirty minutes, and there are thousands who testify that it cures permanently. Mrs. W. T. Rundie, of Dundalk, Ont., says: "I was for years unable to attend to my household duties. I used Dr. Agnew's Cure for the Heart, the result was wonderful, the pain left me immediately after the first dose, and a few bottles cured." Sold by H. L. Bird and Geo. M. Bell & Co.—13.

Alger Guard Election.

All members are requested to be present at the meeting of the Alger Guard at Conroy's hall, Tuesday, October 12, at 7:45 p. m., at which time a captain, first and second lieutenants will be elected for the ensuing year, also six members of the board of directors, and transact such other business as may be presented.

J. H. POUND, C. K. FARMER, Secretary. President.

IN THE COURT HOUSE TOWER.

A Spinks Corners Couple Married There Saturday.

Saturday as the sun was sinking into Lake Michigan Arthur A. Brant and Nellie Pope, of Spinks Corners, ascended the tower to the court house and there above the tree tops and surrounding dwellings, 400 feet above the earth, joined hands and took the vows that united them as man and wife.

The ceremony was performed by Justice St. Clair, the witnesses being Irving Hogue and Miss Edna Hadley, of Bainbridge. Mr. and Mrs. Brant is the second couple who took the matrimonial vows from the dizzy height of the court house tower.

ST. JOSEPH.

Miss Cora King has returned from Chicago.

Miss Olive Gregg, of Chicago, is the guest of her mother.

Ash Smith is in Paw Paw attending the Van Buren county fair.

John Anderson, of Chicago, is the guest of Mr. and Mrs. G. E. Smith.

Mrs. Frank King and daughter, of Chicago, are the guests of friends here.

Mrs. John Needham is assisting her husband in the county clerk's office today.

A scheme for the construction of a new opera house on the Marsh corner is quietly talked of.

John Smith, after a two weeks' vacation has resumed his duties as clerk in Howard & Pearl's drug store.

The local merchants are becoming members of the Merchants' Protective association, represented by C. R. Hutchinson of Benton Harbor.

Oliver and George Legg have leased a piece of property of Wallace & Barnes and are erecting coops preparatory to engaging extensively in the poultry raising business. They will breed all varieties of fancy fowls and expect to establish a large industry. The incubators have already been purchased.

The Kalamazoo association of Congregational churches will assemble in St. Joseph next Monday. Thirty churches will be represented each by a pastor and two delegates. Yesterday Rev. McRoberts asked from his pulpit that all the members who could entertain one or more delegates should inform him.

Special low price sale of picture frames this week at Judson E. Rice's, 156 Pipestone street.

THE WIFE AUCTION.

Wife Bought His Own Clothes and His Desk.

The auction sale of the fixtures of the Brunswick billiard parlors and the personal effects of Eugene I. Wile, was conducted by Constable Jap Fye, auctioneer.

The Brunswick Balke-Blake company bought four of the billiard and pool tables and E. Brant bought the remaining one. Mr. Brant also bought the little safe and other fixtures and P. W. Hall a billiard cue and some other articles.

Wile was at the sale and he bid in his desk and contents at \$30. The contents of the desk was what Wile evidently wanted for the desk was not worth \$10 in the market by itself. For fear the desk might be levied on by creditors again Wile was sharp enough to buy it in the name of someone else. He bid in his clothes and other personal effects for \$50.

Worth Appreciated.

In his younger days the late Mr. W. H. Smith was usually present to see the morning papers dispatched, and one morning something at one of the offices had gone wrong, so that there was great risk of that paper missing the trains. Mr. Smith, recognizing the difficulty, threw off his coat, worked away as hard as any of his subordinates and had the satisfaction of seeing the vans leave with just time to catch the trains.

He was afterward leaning over one of the tables reading a paper, still in his shirt sleeves, when one of the men, mistaking him for a mate, gave him a resounding smack on his broad back, exclaiming:

"Well, Jack, old man, we got that lot away smartly." When "W. H." raised himself, the man rushed away, terrified by his blunder.

On coming on duty at night the man received a note addressed to him, which he concluded contained the "sack," but to his surprise it was to inform him that from the end of that week he would be a foreman. "W. H." had sense enough to see that a man who was so delighted at having accomplished a difficult task for his employers was made of the right stuff.—Pearson's Weekly.

Motherly Solicitude.

Miss Ante—It's funny about our old cat. We can't keep her away from the poker table.

Mr. Age—Nothing strange about that. Naturally she's looking after the "kitty."—New York Tribune.

Spain has 22,966 elementary schools, but only 41 per cent of the children receive even the rudiments of an education. The teachers receive only \$25 to \$400 per year, and most of them are unable to collect that.

It is said that it costs \$23.82 an acre to raise wheat in Massachusetts.

MILITARY AFFAIRS.

Matter of Interest to the Alger Guard.

Several new names have been added to the list of applicants for membership in the Alger Guard and they are good material too.

It will be Chester C. Sweet or Harry Pound for captain for the next year. As the boys seem to be in favor of either it is hard to make a choice.

One of the younger but prominent members of the company suggested the following as officers for 1897-8, C. C. Sweet, captain; J. H. Pound, first lieutenant; Harry Kidd, second lieutenant; which would make a good combination.

All members wishing to pay their dues can do so by seeing Quartermaster Albert Sykes who has that matter in charge.

Jake Simon will be at the Alger Guard meeting tomorrow night to make a proposition to the company which will be of great benefit to them if accepted and should have the attention of every member.

If an extra session of the legislature is held, Senator Blakeslee, who is much interested in the future of the Alger Guard, has promised to introduce a bill to provide for the support of this company in the naval militia until the next regular session and as the military board is in favor of such a movement there is no doubt but what it will pass without any difficulty.

Pipe Made of a Seal's Tusk.

A pipe made out of a seal's tusk was seen at the Wearo office recently. The stem is nearly a foot long and is quaintly illustrated with representations of life under the arctic circle.

The artist was an Indian, and the little sketches in India ink show up very well against the ivory background.

There is a reindeer about to fall under the arrow of an archer. There is a sledge drawn by dogs. Fir trees, topees, a fishing scene, where the captives are being brought to shore in a net, are all true to life.

Another ornament of the same character is a pair of walrus tusks, with delineations of other Alaskan scenes, with the fox and the white polar bear in evidence; also an Eskimo leveling a gun at the latter.

It is said that to add to the terrors of overland travel in the long winter months the larger wild animals are often driven by hunger to attack the trailmen, and packs of ferocious wolves will besiege a camp for days, attacking the horses and reindeer as well as the dogs. More than one caravan has been done to death in this manner, as the whitened bones strewn along the tracks show.—Chicago Inter Ocean.
